# Database Access

Each group need to have a UNIX and a DB2/PostgresSQL group account.

You need to send one email per group including:

- Group Number
- Each member' First Name, Last Name, McGill ID, email

The information must be sent to help@cs.mcgill.ca so they can create the Database group account for you.

The database will be hosted on:
                host: db2.cs.mcgill.ca

You require a cs account in order to connect. You can create account by visiting

[https://newuser.cs.mcgill.ca](https://newuser.cs.mcgill.ca).

If you have forgotten your password, you can visit:
                [https://newpassword.cs.mcgill.ca](https://newpassword.cs.mcgill.ca)

Your CS password will be sent to your first.last@mail.mcgill.ca address.

You can change your password by connecting to teaching.cs.mcgill.ca over ssh and running the passwd command.

Group accounts is created for you, e.g. cs421g01 for your projects once you send email to help@cs with the group members.

```
[root@sql Readme]# db2level
DB21085I  Instance "db2inst1" uses "64" bits and DB2 code release "SQL09014"
with level identifier "01050107".
Informational tokens are "DB2 v9.1.0.4", "s071028", "MI00215", and Fix Pack "4".
Product is installed at "/var/ibm/db2/V9.1".
```
